*STEEL DOORS*  
CATALOG

---

*Our modern and high quality steel doors are the perfect addition to any contemporary home or business. Made from high-grade steel and featuring sleek, minimalist designs, these doors are both stylish and functional. In addition to their aesthetic appeal, they also offer excellent safety features that make them a top choice for security-conscious homeowners and businesses.*

*One of the key safety features of our steel doors is their durability. Steel is an incredibly strong and sturdy material that can withstand extreme weather conditions, heavy use, and potential intruders. Our steel doors are constructed with reinforced frames, heavy-duty hinges, and multi-point locking systems that provide maximum security and protection against break-ins.*

*Another safety feature of our steel doors is their fire-resistant properties. Steel is a non-combustible material that can withstand high temperatures, making it an ideal choice for fire-resistant doors. Our steel doors are designed to meet strict fire safety standards and can help prevent the spread of fire in the event of an emergency.*

*In addition to their safety features, our modern and high quality steel doors are also low-maintenance and easy to clean. They are resistant to rust, corrosion, and fading, and can be easily cleaned with soap and water. This makes them a practical and convenient choice for busy homeowners and businesses.*

## PVC VENEER

LUXZONE

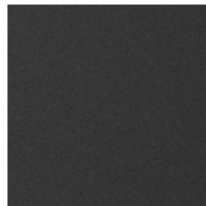

PVC veneer is a popular option for adding a decorative finish to steel doors. Made from a synthetic material that mimics the appearance of natural wood grain, PVC veneer offers an affordable and low-maintenance alternative to traditional wood veneer. It can be applied to steel doors using adhesive or vacuum pressing techniques, providing a durable and long-lasting finish that is resistant to moisture, fading, and cracking. With a wide range of colors and finishes available, PVC veneer can help give steel doors a stylish and customized look that enhances the overall aesthetic of any home or business.

Our PVC veneer comes with a 5-year warranty, providing peace of mind to our customers and ensuring that they receive a high-quality product that will last for years to come. This warranty covers any defects in the material or workmanship of the veneer, and guarantees that it will maintain its original appearance and performance for the duration of the warranty period. In the unlikely event that any issues arise, our team is committed to providing prompt and efficient customer service to resolve any concerns and ensure complete satisfaction. With our 5-year warranty on PVC veneer, customers can trust in the durability and reliability of our product.
