In the rhythm of exceptional design

BRAZILIAN QUARTZITE

Vivacious, but full of class. De nada!

Do you hear that energetic music? Do you feel how the air vibrates, pulsates and resonates? Warm sand under your feet, a blue sheet of water on the horizon, and a singular thought in your mind: how to hold on to this aura for just a little bit longer, hold it in the palm of your hand and take it with you wherever you go, so this exotic feeling can delight you with its rhythm and contrast on a daily basis.

You're already aware that parting with the azure ocean, golden beach and the deep, dark, rocky outcrops will be of great difficulty. But do you really have to part with it all?

Native to Italy's capital of fashion

CEPPO NUOVO

Design, create, strut on it as if you were on a catwalk and invite into your home a touch of the Milan style. Non c'è di che!

Sun in zenith, the aroma of coffee wafting through the air, atmosphere teeming with art, fashion and design. Full of class and elegance, but not without energy and temperament. Echoes of history are felt everywhere, a history that becomes the captivating backdrop for modernity. Full of contrasts, therefore coherent, chill at times, but bathed in the warm southern rays – this Italian capital of beauty – Milan manages to amaze and awe at every step.

MARMO THASSOS

Thassos - Indisputable wonderment and awe. Parakalo!

A light breeze, clear blue skies and a sea the color of which is indescribable. The time here flows slower, everything tastes finer, and the mind saturated with the fresh air absorbs the Mediterranean climate and detects that, which at the first glance is inconspicuous. Magic encapsulated in the tiniest of details.

Perfect imitation

CALACATTA WHITE

With its white tints, the Calacatta White collection shows the Statuario lines of the most beautiful white marble, with excellent precision.
The polished surface of these tiles is reminiscent of Mediterranean like interiors, while the matt version fits perfectly into modern aesthetics, complementing wood and metal textures.

Beauty full of contrasts

MODERN CONCRETE

With class, but modern. Minimalistic, but impressive. There you go!

It allures with the bustle of eclectic streets, flirts, permeating the sounds of nightlife through the air, distanced by the cold, concrete grayness one minute, only to a moment later, amaze with the blinding glow of neon lights or to calm the senses with the greenery emerging from between the buildings.
New York – the Big Apple – a city with tastes that differ according to palate.

SOFTCEMENT

Fans of minimalistic interiors will greatly enjoy the structure of concrete that inspired the Softcement tile collection. An interesting structure along with patchwork accents, is a mix of several interior design trends, that create an impressive and consistent composition in the collection. The imitation of concrete in three shades of grey, combined with very attractive decor and tiles with 3D-print structure, adds a new and interesting character to any room. The Softcement collection is recommended to customers that would like to capture the energy and harmony of subtle and consistent interiors.
